CHLORINE CHEAT SHEET

SPA ESSENTIALS:

SANITIZING:

- SPA56 CHLORINE GRANUALS
- SHOCK OXIDIZER / RENEW
- TEST STRIPS

BALANCING:

- SPA UP (pH up)
- SPA DOWN (pH down)
- CALCIUM BOOSTER

OPTIONAL / AS NEEDED:

- NATURAL CLARIFIER
- FILTER CLEAN
- FOAM DOWN
- ENZYME
- JET CLEAN
- METAL GON*

INITIAL FILL

1. Add 1oz of **SPA56 CHLORINE** to spa water.
2. Add 1oz of **SHOCK OXIDIZER / RENEW**
3. Use **TEST STRIPS** to test water. Take note of Calcium Hardness, pH and Alkalinity Levels
4. Add 10oz to 16oz (1/2 to 1/3 bottle) of **CALCIUM BOOSTER**
 - a. Varies by location and base water hardness, add **CALCIUM BOOSTER** until 250-450ppm is met.
5. Adjust pH and Alkalinity levels using **SPA UP**. Ideal Levels: pH 7.2-7.8ppm | Alkalinity 80-120ppm
 - a. pH level of 6.8-7.2, add 1oz of **SPA UP**
 - b. pH level under 6.8, add 2oz of **SPA UP**

MAINTENANCE ROUTINE (Choose Routine; Weekly **OR** After Each Use):

WEEKLY:

1. Add 2oz of **SPA56 CHLORINE**
2. Add 2oz of **SHOCK OXIDIZER / RENEW**
3. Test: Use **TEST STRIPS** to check and maintain ideal levels of Chlorine, pH and Alkalinity.
4. IF cloudy water, add 1/2oz **NATURAL CLARIFIER** as needed.

AFTER EACH USE: (Recommended)

1. Add 1oz of **SPA56 CHLORINE**
2. Add 1oz of **SHOCK OXIDIZER / RENEW**
3. Test: Use **TEST STRIPS** to check and maintain ideal levels of Chlorine, pH and Alkalinity.

MONTHLY MAINTENANCE:

1. Clean Filters
 - a. Cartridge Filters (pleated): Use a spray-on cleaner such as **INSTANT CARTIDGE CLEANER** or soak filters in **FILTER CLEAN** solution. Rinse thoroughly with water to prevent spa foam.
 - b. AquaKlean Filters (sock): Machine wash in laundry with ¼ cup of household **BLEACH**.
2. Clean Spa Cover with a mild cleaner, then condition and protect using **303 AEROSPACE PROTECTANT**.

OTHER MAINTENANCE:

1. Drain and Refill spa water every 3-4 months (quarterly)
2. Use **JET CLEAN** every 12-24 months to purge plumbing, heating and jet systems.
3. **ONLY** if your water has Heavy Metals, use **METAL GON** on refills.*
